

021-A

FI Institutional Global Developed Equity Fund

Global developed market large cap-biased equities. Active top-down focused strategy.

Über den Fonds

Daten zum May 30th 2026

Fisher Investments is a private US-based asset management firm founded in 1979 by Ken Fisher, a well known innovator and author in investment theory, and a fundamental believer in capitalism and free capital markets. Fisher Investments manage over US\$380bn of assets globally, focusing on private and institutional clients.

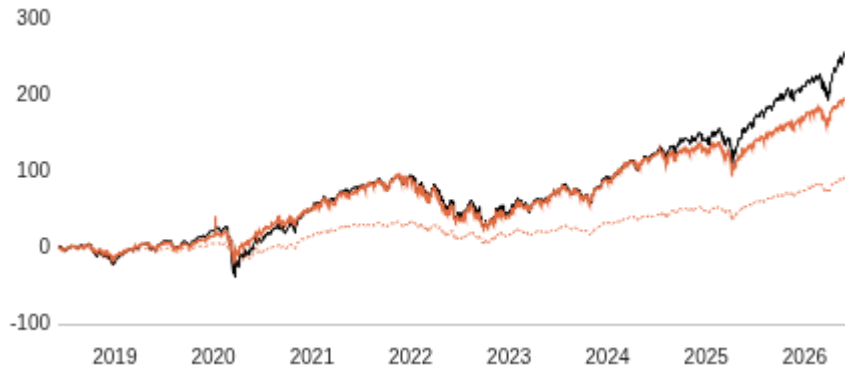

The **FI Institutional Global Developed Equity Fund** is an actively managed fund seeking to outperform the MSCI World Index. The fund invests in global developed markets equities with no market cap or currency constraints, and can invest up to 20% in countries not represented within MSCI World Index. The fund adopts a top-down investment strategy to determine which countries, sectors and equities are most likely to generate the highest expected returns relative to their categories based upon fundamental research, that aims to discover unique sources of information and enable the fund to exploit inefficiencies uncovered through unique analysis of widely available information. The fund uses a multitude of economic, political and sentiment indicators to determine country and economic sector allocations and their risk and return expectations. The fund has >100 holdings.
